Hello

My name is ILYAS BULUT. I am working as a Foreign Affaires Specialist at **Türkiye Diyanet Foundation**. I have conducted and continue to carry out humanitarian aid activities in many countries for many years.

My team and I met the Omeéd Foundation for the first time during Eid Al-Adha in Mozambique several years ago. When we landed at the airport in Mozambique, we encountered some challenges.

Mr. Mohamed Siddique Parker, (Head of the Omeéd Foundation), immediately resolved all issues for me and my team at the airport. It is evident that he possesses the expertise and experience in this region. He easily ensured our entry into the country without any problems.

With his ingenuity, generous personality, and integrity, he has been our greatest help on the field and has helped us run our programs smoothly. Thanks to his efforts we slaughtered many cattle during the Qurbani period and distributed them to the needy people.

I can easily say that working with the Omeéd Foundation will both make your work easier and sustainable without any problems, because the Foundation really has complete dominance over the Southern African countries.
